THE DAILY SUN, published every morning except Monday, delivered by carrier in the city, or mailed to any part of the United States, postage free, for \$5 a year; \$2.50 six months; \$1.25 three months; or 50 cents for five weeks—strictly in advance.

Reading notices in local column 10 cents a line for first insertion, and 5 cents for each additional insertion.

Not for display advertising made known on application.

The Twice-a-Week Sun is an eight-page, forty-column paper, published every Monday and Thursday, and contains all the news of the week, local, state and general, and will be mailed, postage free, to any part of the United States or Canada, for \$1.00 a year—in advance.

All advertising bills become due after first appearance of advertisement, unless otherwise stipulated in contract. Parties not known to us will be required to pay for advertising in advance. Address, THE DAILY SUN, GAINESVILLE, FLA.

SUNSTROKES.

The man who does not like "The Clansman" does not want people to write on facts.

Of all earthly things a man has to be proud of it is his character. It stands for striving and will-power.

We never yet saw the man who could exactly suit a woman in engaging living rooms, provided she had no fear in kicking.

The transformation of the summer boarder to the winter boarder will soon take place, with the aid of the Pullman.

The people of Pensacola discovered a few days ago that "Fighting the Flames" was the most costly and spectacular amusement they have had for some time.

An effort is being made by some of our local preachers to get the people in the outlying districts to stop hunting hogs on Sunday and attend religious services that will be held at various points on each Sunday afternoon.

If a wet summer is followed by a warm winter, there is a good prospect for the coming winter season. Although the past summer was not so terribly wet in this section, old residents claimed that it reminded them of the old days in Florida, when tissue balloons and carpet-baggers were in their glory. But we are now informed that the people in search of homes are coming this way, and they can rest assured that the good folks in Florida will give them a hearty welcome.

The editor of The Jacksonville Times-Union is as full of jokes at the misfortunes of our sister city as was Nero when Rome was burning, and pens the following: "Pensacola's troubles seem all to come at once. Let us hope that having fired a big block, the town will now proceed to fire the yellow fever."

With the development of Florida comes the increase of railroad traffic. Every new settler helps the railroads, and we are pleased to see them taking a lively interest in the homeseeker movement.

Some of President Roosevelt's good Republican friends are afraid the Democrats of the South may want him to run for President again, and such a program would "bust" up the slate.

The naval stores men are now in clover. Prices are high for rosin and turpentine, and there is more money being made today with that product than a Texas oil well can produce.

The mild autumn weather of the South has a chilly background in the North of ice and snow.

The strikers in Russia say that the government is composed of cowards. Discovered at last.

Won't someone publish a book on "The President's visit to the South?"

The Russians need another little peace conference of their own.

West Virginia will be well represented in Florida this winter.

IMMIGRATION CONFERENCE.

The Tradesman, published at Chattanooga, Tenn., where the immigration conference is to be held November 9th and 10th, says that this conference will mark a distinct epoch in the future of the South, and he believes that the educational effects it will achieve regarding yellow fever will be of such a character that there will never again be a "shot-gun quarantine" in the South, or any other that will in the least partake of the hardships and losses that have hitherto followed all quarantines in this section.

There will be a more perfect knowledge of the origin and treatment of this disease, and this will remove the great apprehension and dread which its appearance has heretofore created; and there will be, as little disturbance to usual avocations if it does appear as is now seen over typhoid or other fevers to which humanity is subject.

To have been a participant in a gathering that aided, in even the slightest degree, in bringing such results to the people of the South, will be indeed an honor worthy of transmission to one's posterity with feelings of highest gratification and loftiest pride.

So likewise will it be with the question of immigration. This is none the less vital to the South at this time than is the question of relieving it from the burdens and evils of quarantine. Every interest of our people demands that only such numbers and classes of immigrants be brought into the South as can be given profitable employment and assimilated with our institutions. There is an imminent danger of having dumped on to the South great hordes of those alien classes that are now flooding other portions of our country, and if these come among us in anything like the numbers that are arriving at Castle Garden and Ellis Island we shall have evils of which we have never dreamed before. The turning of this tide Southward, as is now contemplated, will bring a change in the entire conditions for which the South has fought so long and valiantly, for this would practically jeopardize not only good government but our very civilization itself.

No mistakes must be made now in this matter, but it should be met with the same degree of loyalty and devotion to the best interests of the South as have characterized our people for the past forty years. The Tradesman has nothing but the best interests of the South at heart, and it has made no utterance on this great question but that came from conviction, and it expects to continue along the line of its past policy on this subject.

Let those who have the welfare of the South at heart attend this conference, and let them set from that standpoint alone, and if that is done there can be no question of the value or importance of the service that will be rendered to this people and to the country.

The Daily News of Pensacola has its troubles. It has been fighting the doctors who have been fighting the fever, and has overlooked other items. It has each day published a list of deaths from fever, and now says it would gladly publish the notices of the deaths of some people from other causes. What a sentiment.

Governor Broward has issued a general invitation to all members of the Legislature of 1906, and to his personal staff, to attend the opening of the Florida Mid-Winter Fair at Tampa, November 18th. Governor Broward will be present to formally open the Fair.

Key West celebrated the commencement of work on the Florida East Coast Railway extension to that city, on Thursday, November 2, with a barbecue. It was a big time.

Beware of Ointments for Catarrh That Contain Mercury.

As mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is ten fold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally and made in Toledo, Ohio, by F. J. Cheney & Co. Testimonials free.

Sold by druggists. Price 75c per bottle.

Take Hall's Family Pills for constipation.

FACTORIES WANTED.

The people of Gainesville, and especially men with capital, are now looking around for the location of factories in our city, so that we may have men employed to consume the farm products of the surrounding country. We have the banner agricultural county of the State, and if we can make a home market for farm products without being obliged to ship to other markets it would hold the trade at home.

Situated as Gainesville is, in the midst of the finest cotton belt in the South, there is no reason why a cotton mill should not be a paying investment to the man or men who should engage in this enterprise. Mr. P. M. Colson, who has recently been in Quitman, Ga., where they have two cotton mills—long and short—was informed by a gentleman who was posted on the subject that the mills there paid upwards of 15 per cent on the investment. The two factories in that city were built and equipped at a cost of \$75,000 each.

The amount of trade the merchants would realize from the employees of a cotton factory would be considerable, and as the raw material would be right at hand, the benefits can be readily seen. It would help our cotton market and help our merchants and increase every line of business.

Let the matter be considered by men who have money to invest at a fair rate of interest.

You Get Up

In the morning tired, languid, and frequently with a headache that is almost unbearable. You have been nervous, restless and sleepless night after night, and gloomy and irritable during the day. This nervous exhaustion affects the heart, lungs and other organs that depend upon the nerves for motive power. Then the stomach fails to digest the food; the heart action is weak, and circulation poor, and the kidneys and liver inactive.

What you need is not a stomach, head, kidney or liver medicine, but Dr. Miles' Nervine to soothe and feed the nerves and build nerve tissue.

"My wife was subject to severe mental strain, which resulted in nervous prostration. The first symptoms were uncontrollable crying and melancholy spells, which increased to such an extent that for over a year she would have a spell every day of from four to six hours duration. She required the constant attention of her physician and attendants. She suffered great pain and anguish. The best physicians attending her could give no relief, and she finally became almost of unsound mind. As a last resort I began giving her Dr. Miles' Nervine and Tonic, and noticed that her spells next day were not so severe, and they gradually disappeared altogether. She has had no recurrence of the spells, and is gaining in health and strength."

J. P. OVERHOLSER, Sterling, Ill.
Dr. Miles' Nervine is sold by your druggist, who will guarantee that the first bottle will benefit you. If it fails, he will refund your money.
Miles Medical Co., Elkhart, Ind.

BALLARD'S SNOW LINIMENT

READ THIS REMARKABLE CURE

"I was much afflicted with rheumatism, writes Ed. C. Nud, Iowa, Sedgwick Co., Kansas, 'going about on crutches and suffering a great deal of pain. I was induced to try Ballard's Snow Liniment, which cured me, after using three 50c bottles. IT IS THE GREATEST LINIMENT I EVER USED; have recommended it to a number of persons, all express themselves as being benefited by it. I now walk without crutches, and am able to perform a great deal of light labor on the farm.'"
